

MultNAT® System

Molecular Diagnostic PCR System

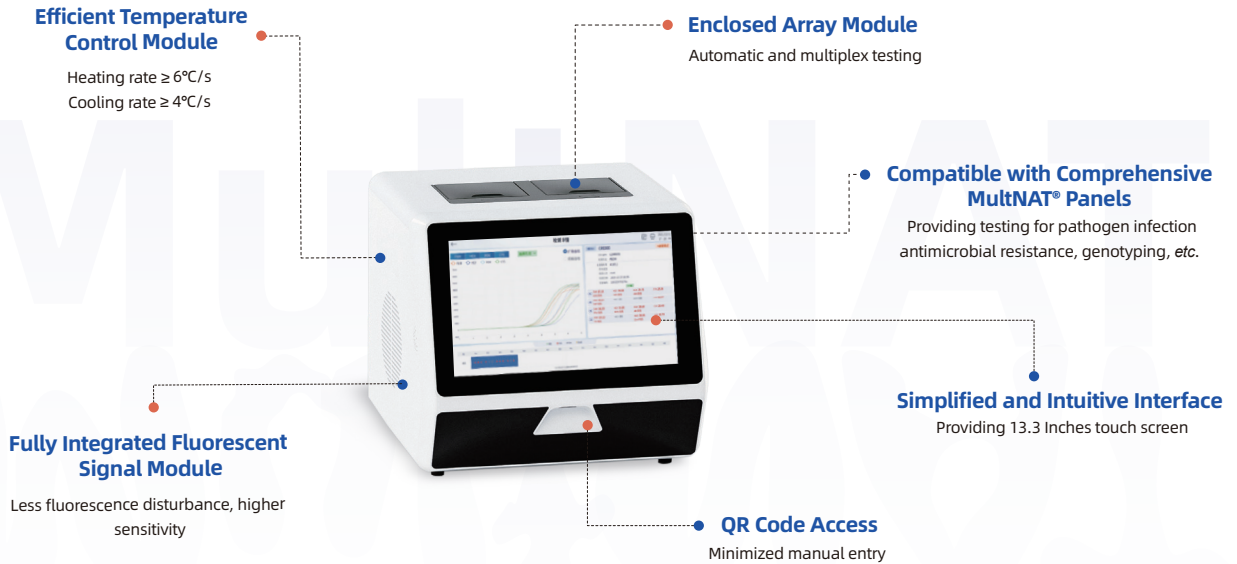

Multiplex / Automatic / Enclosed / High-Throughput

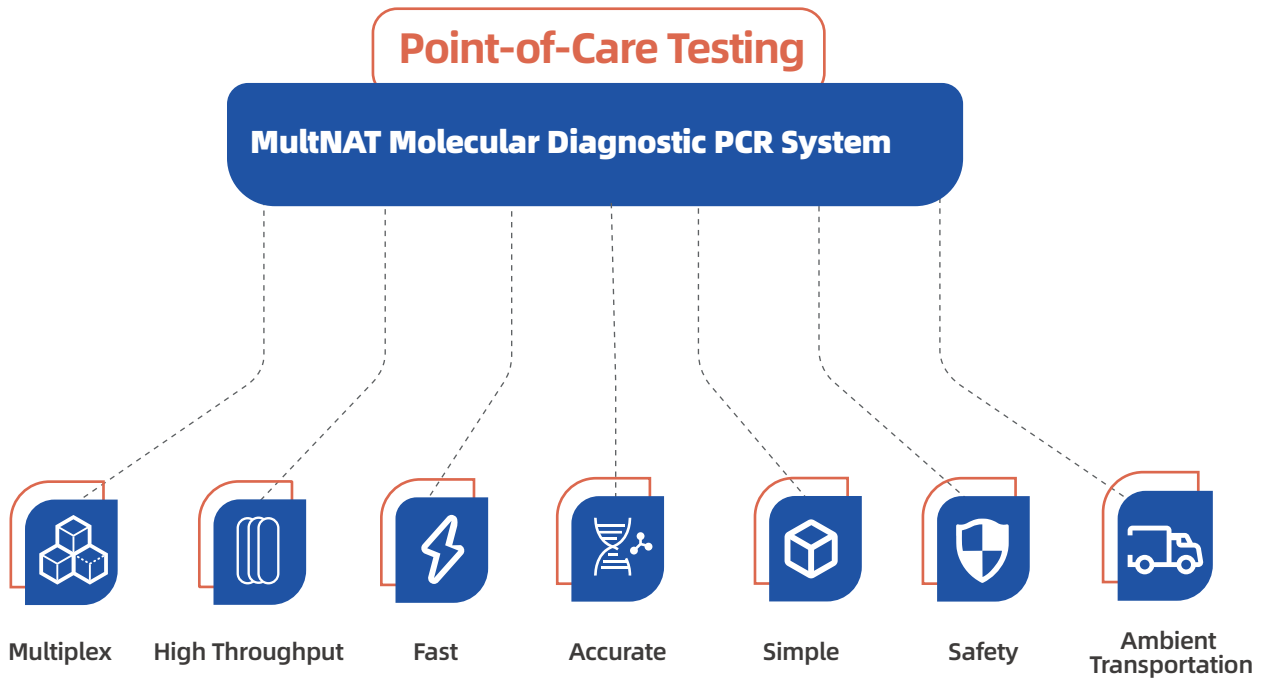

PRODUCT INTRODUCTION

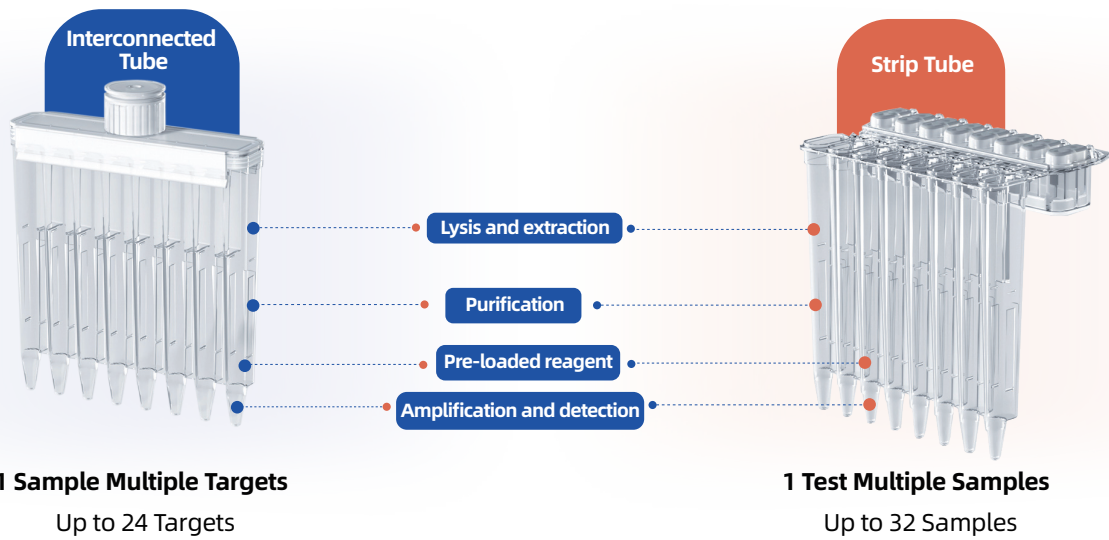

The MultNAT[®] System, based on fluorescence polymerase chain reaction (PCR) technology, is a fully integrated and automatic system designed to meet the increasing demand for multiplex, high-throughput and quantitative testing.

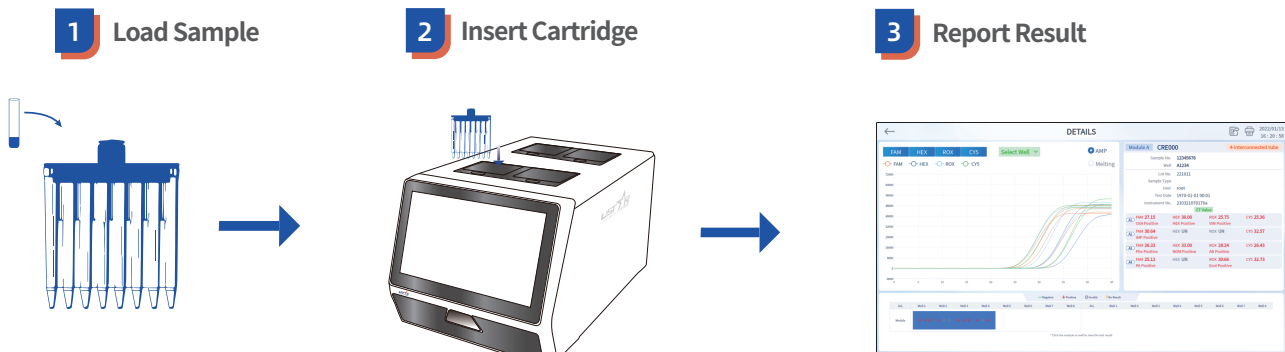

PRODUCT FEATURES

CARTRIDGE

WORKFLOW

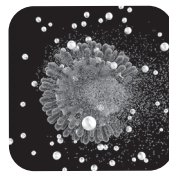

EXTENSIVE TESTING

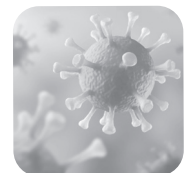

Pathogen Infection

Medication Guidance

Genotyping

Viral Load

TEST MENU

Products with * are in development or registration.

Tests	Testing Items	Tests	Testing Items	
Pathogen Infection	MultNAT Respiratory Panel*	Medication Guidance	MultNAT MTC/MDR Assay*	
	MultNAT Sexually Transmitted Infections Panel*		MultNAT MTC/XDR Assay*	
	MultNAT Flu and RSV PCR Assay*		MultNAT Diagnostic Kit for TB and resistance to rifampicin*	
	MultNAT SARS-CoV-2/Flu and RSV PCR Assay		MultNAT Carba - R and Four Pathogens PCR Assay	
	MultNAT Strep A Assay*		MultNAT S.aureus and MRSA PCR Assay*	
	Helicobacter pylori Detection Kit		MultNAT MRSA Assay	
	MultNAT Norovirus Assay*		Helicobacter pylori 23S rRNA Gene mutation Detection Kit*	
	MultNAT Gastrointestinal Panel		Warfarin Gene Polymorphism Test Kit*	
	MultNAT Blood Culture Identification Panel*		Clopidogrel Gene Polymorphism Detection Kit*	
	MultNAT Meningitis Encephalitis Panel*		MultNAT Bladder Cancer Detection Assay*	
	MultNAT Ebola Assay*		MultNAT BCR-ABL Ultra Assay*	
	MultNAT Pneumonia Panel*		MultNAT vanA/vanB Assay*	
	MultNAT [®] Monkeypox Virus*		MultNAT MG DR Assay*	
	MultNAT EV Assay*		Viral Load	MultNAT Epstein-Barr Assay*
	MultNAT C.difficile Assay*			MultNAT HBV Viral Load*
Genotyping	MultNAT NTM Panel*	MultNAT HCV Viral Load*		
	MultNAT FII & FV Assay*	MultNAT HIV Viral Load		
	MultNAT HPV Panel*
